PROFILE

Experienced Front-End Developer, adept at the main technologies for web and mobile development. Knowledge of user interface, accessibility and usability.

WORK EXPERIENCE

Front-End Developer

Grupo Seleccionar / 2022 - Present

On this journey I work with the development of applications and improvements to the Serasa help center.

I implemented Google Analytics tags and adapted pages to improve accessibility.

Front-End Developer

Pense Pack / 2021-2022

Development and maintenance of an e-commerce platform with JavaScript and Python.

Designed and developed new important pages for the shopping flow. In addition to helping with integration with payment tools.

IT technical support

Soft Line Sistemas / 2020-2021

Technical support for ERP users and system updates.

Telemarketing attendant

Contax / 2015-2019

I worked serving customers of a financial institution, negotiating debts, issuing bills, cards and passwords.

EDUCATION

UNEB - State University of Bahia
information systems

Dom Pedro II University Center
Information technology
management

CERTIFICATION

Full stack developer
Bootcamp
XP Education

SKILLS

I feel more confident in:

JavaScript-based frameworks and libraries, mainly React and Nextjs, CSS and its preprocessors and frameworks such as Tailwind, prototyping and implementing Figma designs, accessibility and usability.

I have good knowledge in:

React Native, Jquery, GraphQL.

I can manage with some help:

Python, Back-end with node.
